

Describe the major body parts of insects.

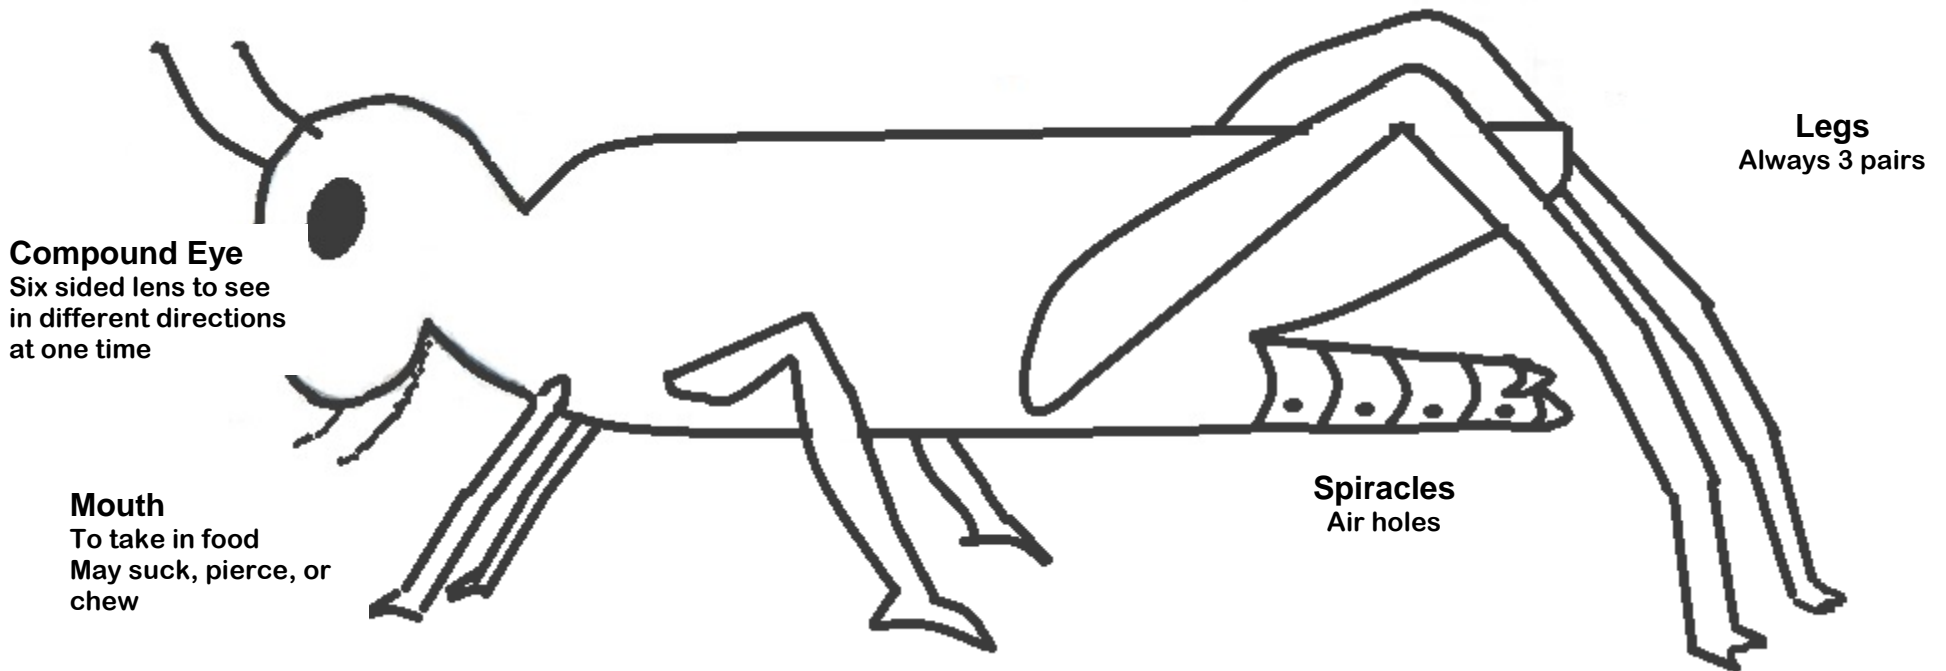

Describe the major body parts of insects.

**HEAD**

**THORAX**

**ABDOMEN**

*Collect and classify at least 15 insects. Notice the difference in the three body parts. If it is the wrong time of year to do this, make a diagram with the three body parts and classification of at least 15 insects. Use an insect field guide to identify and classify the insects. This will prepare for animal classification later in this unit.*

## Zoology 1 Information Pieces

<b>HEAD</b> Z-1	<b>Antennae</b> Z-1
<b>THORAX</b> Z-1	Smell, touch, taste, balance Z-1

	Six sided lens to see in different directions at one time Z-1
	<b>Mouth</b> Z-1
	To take in food May suck, pierce, or chew Z-1
	<b>Legs</b> Z-1
	<b>3 pairs</b> Z-1
	<b>Spiracles</b> Z-1
<b>Air holes</b> Z-1	

*To Make Your MatchCard more durable:*

- 1. Put the student MatchCard and instructor MatchCard back to back in a clear plastic page protector.*
- 2. Laminate the information pieces. Or you can make them sturdier by covering the paper with transparent tape prior to cutting the pieces out.*
- 3. For more ideas on how to use the MatchCards, and for keeping a notebook for review, see the Instructor's Guide.*
