

Explain the metamorphosis of a butterfly.

Explain the metamorphosis of a butterfly.

Egg
Butterfly
egg

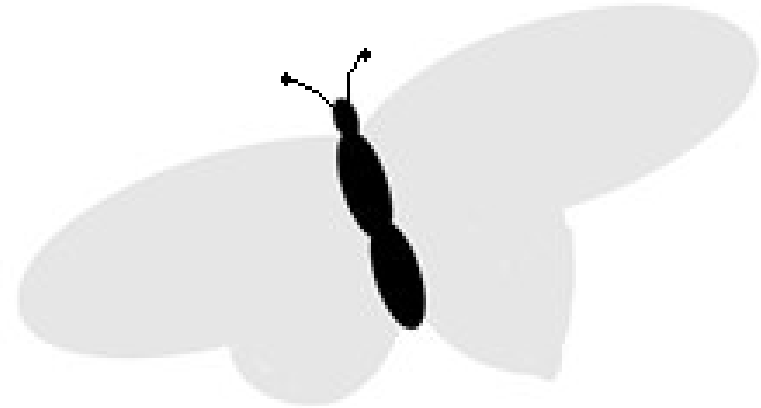

Larva
Caterpillar

Pupa
Cocoon

Adult
Butterfly

It is a great activity to purchase a butterfly kit and watch them change. Other activities: 1) Compare the life stages for butterflies and moths or other insects. 2) Make a colored poster of different species of butterflies and the caterpillars of the same species. Pay attention to the colors and designs. 3) Visit a butterfly garden. List plants that attract butterflies. Consider planting some in your yard and watching for the eggs, larva and pupa. 4) Do an internet search for butterfly migration. Make a map of their geographic locations at different stages

To Make Your MatchCard more durable:

- 1. Put the student MatchCard and instructor MatchCard back to back in a clear plastic page protector.*
- 2. Laminate the information pieces. Or you can make them sturdier by covering the paper with transparent tape prior to cutting the pieces out.*
- 3. For more ideas on how to use the MatchCards, and for keeping a notebook for review, see the Instructor's Guide.*
