

Locate the five major oceans on the earth.

Locate the five major oceans on the earth.

Identify the six oceans on a globe. On a large, open space of floor, create a map by outlining the major continents with yarn or string. Write the name of each ocean on an index card. Read the name of one ocean, and the student has to jump to that ocean without touching a continent. Take turns.

Geology 5 Information Pieces

Indian Ocean O-1
North Pacific Ocean O-1
South Pacific Ocean O-1
Arctic Ocean O-1
North Atlantic O-1
South Atlantic O-1

To Make Your MatchCard more durable:

- 1. Put the student MatchCard and instructor MatchCard back to back in a clear plastic page protector.*
- 2. Laminate the information pieces. Or you can make them sturdier by covering the paper with transparent tape prior to cutting the pieces out.*
- 3. For more ideas on how to use the MatchCards, and for keeping a notebook for review, see the Instructor's Guide.*
