

*Make muddy or sandy water in a pitcher. Put a coffee filter over a bowl or container. (You can also make a filter from paper towels) Pour the dirty water into the filter, and watch the cleaner water filter out. Explain it may not filter out particles small enough to go through the filter.*

*Keep track of how much water and liquid you drink for 5 days. Notice how the amount of fluid intake affects the color of urine.*

## Human Anatomy 8 Information Pieces

<b>Kidneys</b> HA-8
<b>Ureters</b> HA-8
<b>Bladder</b> HA-8
<b>Urethra</b> HA-8

<b>Filters waste products out of the blood</b> HA-8
<b>Tubes that take the urine from the kidney to the bladder</b> HA-8
<b>Stores urine until the person is ready to urinate</b> HA-8
<b>Passage of urine to the outside of the body</b> HA-8

*To Make Your MatchCard more durable:*

- 1. Put the student MatchCard and instructor MatchCard back to back in a clear plastic page protector.*
- 2. Laminate the information pieces. Or you can make them sturdier by covering the paper with transparent tape prior to cutting the pieces out.*
- 3. For more ideas on how to use the MatchCards, and for keeping a notebook for review, see the Instructor's Guide.*
